Hot Off the Press From 3C's Desks

Our Amazing Class

Our class is full of hard-working, respectful students! There is hardly a need to even talk about clipping down! Most of our conversations involve who will be clipping up!

Upcoming Curriculum

Reading: Today your child brought home his/her black and white "Interactive Notebook". This notebook has everything we have done so far in class to prepare for their Theme Test on Friday. Next week the notebook will begin coming home daily to help you prepare and they will also receive a more detailed study guide and matching cards to practice with next week.

***All of these resources are in CANVAS in our Reading Tile. To locate them, you need to click on "Reading" and then "Modules" on the right-hand side. The reading book can also be accessed using your child's Think Central username and password.

Math: It's time to start preparing for our test on Wednesday! We have practiced all of the content in this chapter and now we are moving on to review.

Some skills to practice at home are: identifying the place value a number is in and how much it is actually worth, the four different forms or ways to write a number, numbers in a pattern, numbers that are greater and less than, how to make a number 100 more or less, etc. I feel that they are almost ready and will do well!
